Drop-Side

How can you easily carry more than one ton without having to rent a truck? The answer is your new Dacia Drop-Side. Designed for heavy loads, Dacia Drop-Side has special side panels that can be opened completely. Thus, there is nothing easier than loading and unloading voluminous or heavy transports.

Furthermore, Dacia Drop-Side has sturdy spring suspensions, a ground clearance varying between 175 mm (empty) and 165 mm (fully loaded) and is available in three types of transmission: Traction, Propulsion and 4x4. These characteristics mean a pleasant driving experience on whichever road your business may take you. Other things that make Dacia Drop-Side your right choice are its affordable price and low maintenance costs.

If you add its powerful yet economical engine, you will find that Dacia Drop-Side is the efficient solution for your business.
