

HONDA N360

Safety Engineered Car Boasts Unique Features And Design Detail Care

All equipment needed for driving safety and comfort are included in the standard specifications of this neat family sedan. Expert care was devoted to even the smallest design details to assure perfection.

You expect outstanding roadholding, good suspension, quick-stopping brakes and bright lamps from Honda. With this nifty small car you get a host of other things as well. A front mounted engine combined with front wheel drive, for instance, and sports car type rack-and-pinion steering allow precise control. Both understeer and oversteer are completely eliminated. The thru-flow ventilation system has vents in the rear. All the many dials and gauges in the eye-easing black instrument panel are easy to read quickly. Curved glass all around adds space to the roomy interior. The floor is flat—no drive shaft hump.

Soft safety padding on dashboard, steering wheel, sun visor and back of front seats, shock-proof door latches, windscreen washer, reversing lamps, recessed door handles—safety features are too numerous to list.

Small Engine Produces Quite Good Performance With Servicing Economy

Speeds in excess of 70 miles per hour. Quick acceleration for scooting away from traffic signals. You can run the first $\frac{1}{4}$ mile from a stop in just 22 seconds. Zip up smart slopes without fuss. It's hard to realize top performance such as this comes from such a small engine.

Honda's brilliant reputation is firmly based on the design and production of really marvelous small capacity engines. The power-boosting overhead camshaft engine made from quick-cooling aluminum alloy produces 31 horsepower. Since it's an economical 4-stroke design incorporating many unique mechanisms, all problems encountered in other small car engines have been overcome. Peak performance for years and years without expensive repairs is guaranteed by Honda's mechanical precision and the severe quality control in its ultra-modern automated factories. Routine servicing is held to a minimum cost as well.

Compact Family Sedan With Plenty of Space And Low Running Cost

This economical Honda sedan includes as standard equipment everything you need in a modern car. You'll have the time of your life with this cute little scamp and find it more useful than you'd ever dream.

Honda's capable engineers and designers didn't overlook anything in producing a low cost car. This includes full luxury specifications, complete instrumentation and top quality finish throughout. There's plenty of room for four adults to ride in comfort. Performance is so satisfying you'll hardly believe the engine is only 360 cc in size until you note the terrifically low running cost.

This compact family car has all the safety features (and maybe more) as a high priced luxury sedan. This unique design in inexpensive transportation incorporates absolutely everything you want in a car unless you need 450 horsepower and 225 mph highway speed. (Honda makes one of these, too, but the Formula One racer is not for sale.) If proven endurance for good average speed motoring with economical gasoline mileage interests you, test drive the Honda N360 soon.

Specifications

Performance

Maximum speed	71 mph (115 kph)
Acceleration $\frac{1}{4}$ mile	22 seconds
Fuel consumption	65 mi/imp gal, 54 mi/US gal (23 km/lit) for driving at constant speed of 44 mph (70 kph)
Climbing ability	20°

Engine

Type	4-stroke, forced air cooled, aluminum alloy overhead camshaft parallel two cylinder
Bore and stroke	2.46 x 2.28 in (62.5 x 57.8mm)
Cylinder capacity	354 cc (21.6 cu in)
Compression ratio	8.6 : 1
Maximum horsepower	27 ps/8,000 rpm (DIN), 31 bhp/8,500 rpm (SAE)
Maximum torque	24 ft-lb (3.0 kg-m)/6,000 rpm
Ignition	12 v 26 ah battery
Carburetor	Variable venturi
Transmission	Direct change, 4 speeds forward, 1 reverse

Drive	Front wheel
Steering and ratio	Rack and pinion, 17.4 : 1

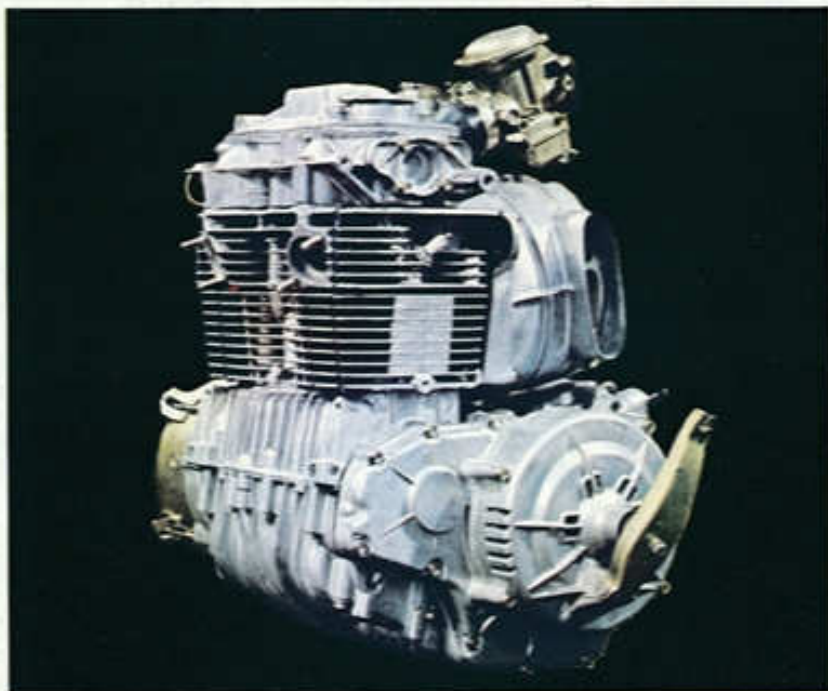

Dimensions

Length	119 in (3,025 mm)
Width	52.0 in (1,320 mm)
Height	52.4 in (1,330 mm)
Wheelbase	78.7 in (2,000 mm)
Curb weight	1,113 lb (505 kg)
Tire size	5.20-10, 2 pr (4 pr)

● Specifications subject to change without notice.

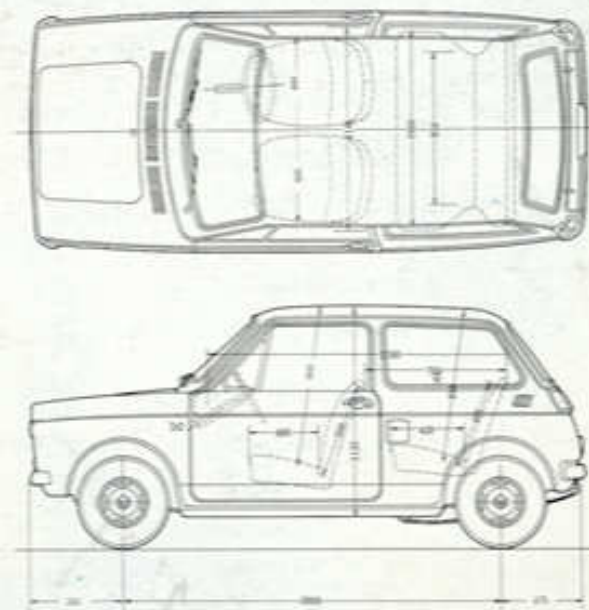

Optional Equipment

• Radio and rod antenna • Low tone horn • Auxiliary heater • 32 ah battery • Fog lamps • Passenger sun visor • Passenger seat slide • Safety belts • Reclining seats • Floor carpet • Mud guards • Spare tire cover • Tachometer • Clock • Seat covers • Body cover • Front grille cover • Passenger side interior light switch • Roof carrier • Cigar lighter • Inspection light • Trunk floor mat
