

Stevens-Duryea

Model AA Seven Passenger
Six-Cylinder Touring Car

THE first successful American automobile was the "Duryea wagon"—the original Stevens-Duryea. The first marketable six-cylinder car was a Stevens-Duryea. The first car to show practically every important improvement in motor-car construction has been the Stevens-Duryea.

The development of the Stevens-Duryea is coincident with the history of the American Motor Car.

Why the Stevens-Duryea has always maintained its leadership is convincingly set forth in our 1912 Art Catalog. Our dealers will give demonstrations at your convenience.
