

ZASTAVA 750 LC
750 SC

STRONGLY AND COMFORTABLY...

The instrument panel covered with plastic material, plastic shelf on the tunnel, built-in plastic shelf below the instrument panel, built-in shelf behind the back seat, built-in handle on the instrument panel, front and back seats covered with better fabric, rugs on the front mud guard and tunnel, side internal coverings made of fabric and artificial leather, additional internal roof covering are the basic characteristics of inside equipment in ZASTAVA 750 SC.

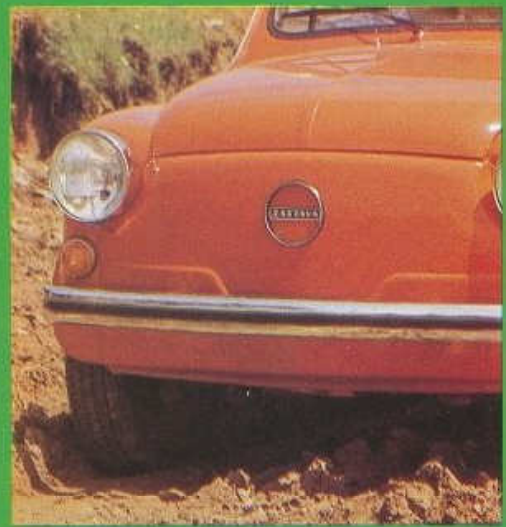

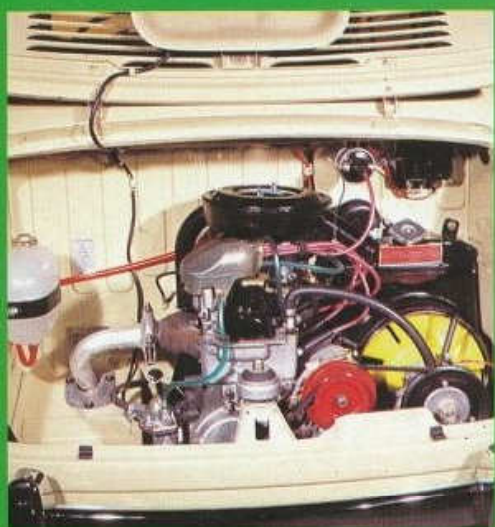

SPORTS COMPETITIONS – BEST TEST

Durability and quality have been proved many times. It has been always a winner in its category at all major competitions in the country. Almost all Yugoslav motoring champions have tried and gained reputation with ZASTAVA 750.

BETTER EQUIPMENT — MORE COMFORTABLE DRIVING

The vehicle has comfortable equipment. The form of the shelf below the instrument panel has been changed. The support of the instrument panel is protected with anti-reflexive material. A new upholstered roof, which reduces noise, has been built in. Front and back seats have been improved and this makes driving more comfortable. A rearview mirror has been built in. It is adjustable and has a device against blinding. Strong lights provide safety during night driving.

With its dimensions it easily fits into modern traffic. It is suitable for all kinds of roads.

This small, durable and economic vehicle has been in use and improved over twenty years.

This period of time best knows this vehicle and repeatedly confirms its value. It is an inseparable member of families of several hundreds of thousands of motoring Yugoslavs. This vehicle has been made to serve you because it has:

ENOUGH ROOM FOR THE ACCOMMODATION OF FOUR PASSENGERS AND LUGGAGE

The seats are separated and easily adjustable. Front seats can be lowered forward and facilitate access to back seats. More room is provided for the transport of large items when lowering back seats.

Apart from the boot, the space behind the back seats is used to accommodate luggage.

PRACTICAL SOLUTIONS WHICH EASILY FIT INTO MODERN TRAFFIC

The vehicle „ZASTAVA 750“ is suitable for drive on all roads, in various weather conditions and has great maneuver potentials. The door, with a great opening angle, provides easy access to the vehicle. Lock safety has been tested. The well-known strong reflector with the long beam and normal beam and easily visible parking and stop lights increase safety during night driving.

Everything is under the driver's view control: instrument panel, gearshift, hand brakes on the floor, shelf for personal accessories. Driving is simple and easy.

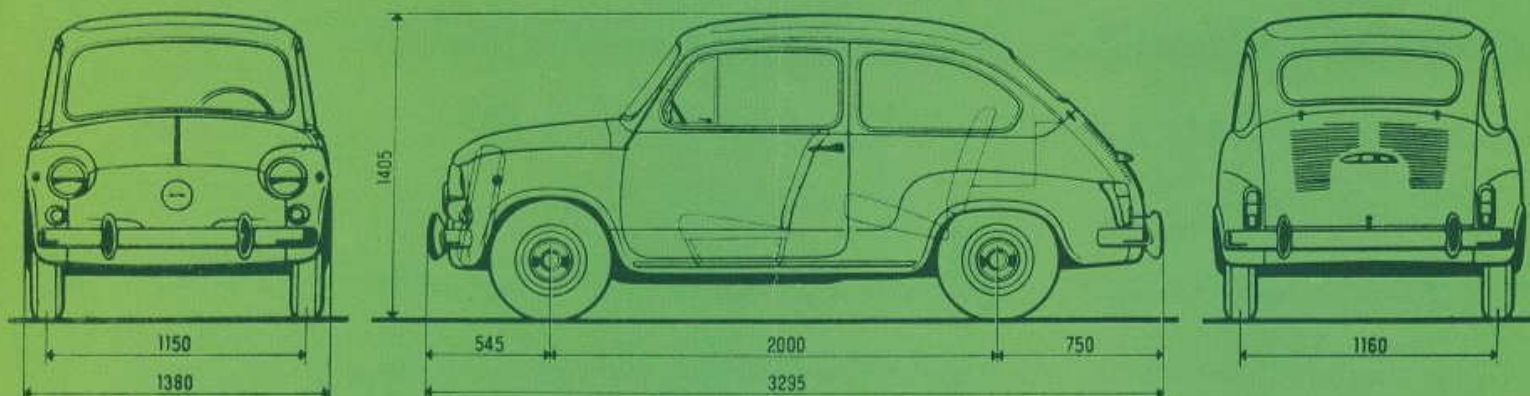

Sliding windows on doors are moved by a handle in vertical direction. Windshield windows serve for ventilation.
