A07B

ZUK

ZUK A07B is a transportation means of wide use.

The loading-space — fitted with windows and airconditioned, is equipped with folded soft seats with rear rest support.

The said carrier is designed for transportation of cargo up to 950 kg. which requires to be protected against dust and moisture or for transport of 7 passengers and goods of 425 kg weight, e.g. working staff together with equipment.

Two-person driver's cab has efficient heating and ventilation system and secures comfortable operation conditions.

The driver's cab can be separated from the loading-space

by an easy to assemble partition-wall, which is a part of the van's equipment.

The goods-passenger space is equipped with a two-wing rear door, which can be opened up and down, as well as with a side-door in the right hand side of the vehicle. The vehicles produced at present are equipped with modernized driver's cab, bigger windscreen, screen washers, anchors for safety-belts and two heaters with separate fans.

Thanks to its strong frame, durability, manoeuvrability and speed this van is an irreplaceable means of transport for retail trade network, service workshops, repair groups etc.

TECHNICAL CHARACTERISTICS

Engine

Type — S21 (17 oder 19) (carburettor, O.H.V.)
Fuel — petrol, not less than LO=78, recommended fuel — gasoline 85LO/B
Engine capacity — 2120 cm³
Max. rating — 51.5 KW (70 HP) at 4000 r.p.m. (DIN)
Max. torque — 150 N.m. (15 kGm) at 2500 r.p.m. (DIN)
Fuel tank capacity — 55 l
Oil system capacity — 5 l
Type of carburettor — JIKOV 40 SOP or WEBER 34S2B1
Ignition plug — (225-240) M14×1.25 BOSCH, ISKRA F75
Dynamo — 12 V/300 W
Battery — 12 V/45 Ah

Transmission system

Type of gearbox — mechanical
Number of speeds — 3+1 rear
Synchroneshed speeds — 2nd and 3rd

Tires

Radial tires — 6.50 R-16/10 PR

Air pressure: front wheels — 0.25 MN/(m²/2.5 kG/cm²)
rear wheels — 0.32 MN/m²/3.2 kG/cm²

Chassis

Wheelbase — 2700 mm
Wheel track: front — 1368 mm
rear — 1375 mm
Ground clearance — transverse: — 210 mm
longitudinal: 290 mm

Body

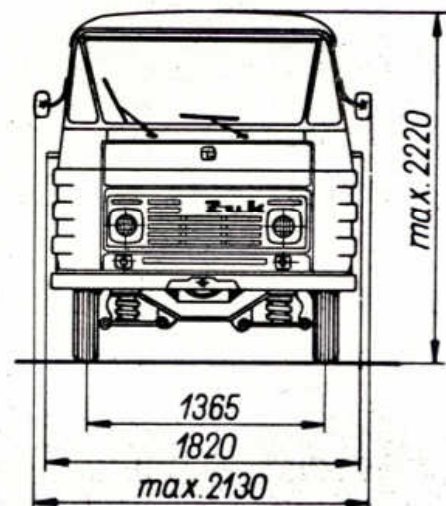

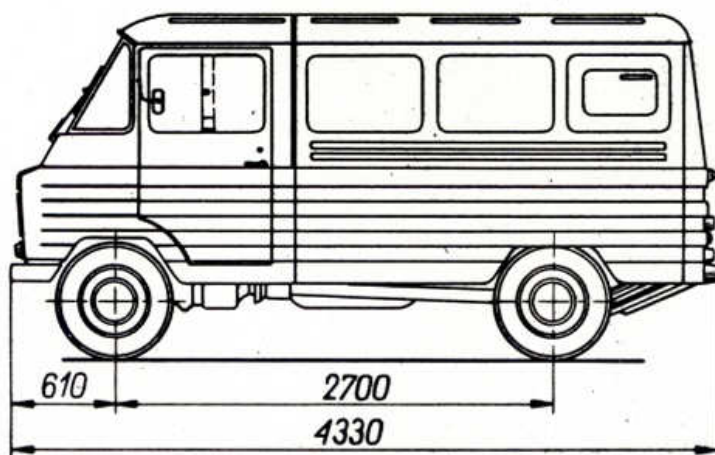

Number of seats indriver's cab — 2+5
Loading-box area — 4 m²

Weight

Empty weight — 1550 kg
Loading capacity — 950 kg or 7 persons and luggage of 425 kg

Dimensions

Length — 4330 mm
Width — 1820 mm
Height (when unloaded) — max. 2220 kg
Fuel consumption — 14 l/100 km
Max. speed — 95 km/h
